Re: Advisory Recommendations — Working Capital Optimization

Dear Mr. Alvarez,

Following our review of Cascade Retail Holdings' working capital position, we recommend a phased program to release approximately \$4.2M in trapped cash over the next two quarters, primarily through vendor-term renegotiation and inventory rationalization.

Our analysis indicates days-payable-outstanding can be extended from 38 to 52 days without disrupting key supplier relationships. We further recommend consolidating the current 14 logistics vendors to 4 preferred partners.

We would be pleased to discuss these recommendations at your convenience. Please contact the engagement partner directly at d.okafor@meridian-ap.com or (415) 555-0192.

Sincerely,

Dara Okafor
